563	Lights package	X	X	X	X	287.00	with ambience lighting designs. Comprises welcome staging and predefined selectable light designs based on three-colour LEDs (partial). Additional functional contents include two vanity-mirror lights, lighting for front footwell, glove-box light, backrest lighting for front seats, interior reading lights front and rear, tailgate lighting, decorative moulding lighting, door upper-arm trim panel lighting and map pocket, footwell lights rear, exit lights
575	Additional 12-volt power sockets in combination with 493	X	X	X	X	45.00 0.00	1 x in storage compartment, centre, 2 x in centre console, rear
5A1	LED fog lights in combination with 552 not with 5A3	X	X	X	X	159.00 0.00	integrated into bumper system
5A3	BMW Night Vision with dynamic light spot only with 552 / 524 only with 5AC Package content	X	X	X	X	1588.00	camera-based system with dynamic light spot, employing infrared technology to enable people to be seen more readily in poor-visibility situations: images of objects identified as persons are highlighted by a yellow warning symbol on the control display. The system also issues a visual warning (red warning symbol in the Control Display) and acoustically as soon as a person moves toward the carriageway area or if a person is already in this area. Including animal recognition Equipment: 6UK
5AC	High-beam assistance in combination with 552 / 524	X	X	X	X	113.00 0.00	automatic switching on and off of the high-beam headlights depending on the traffic situation. Control via sensor on the front side of the interior mirror. In combination with option code 552 Adaptive LED headlights or option code 524 Adaptive Headlights, no-dazzle high-beam assistance. Note: refer to specific offers in the country-specific contribution
5AG	Lane Change Warning only with 430	X	X	X	X	469.00	radar-based system for permanent monitoring of the zones to each side of the vehicle, detection of vehicles in the "blind spot" at 20 km/h and faster for desired lane change (direction indicator is ON or direction-indicator stalk is held in short ON position). Haptic warning via the steering wheel (vibration) and flashing symbol in the mirror
5AL	Active Protection	X	X	X	X	265.00	safety package for initiating protective measures for the occupants if an accident situation is imminent: belt tensioning, windows are closed, sliding sunroof is closed (if fitted), backrests of front passenger seat are positioned (depending on options fitted), automatic braking after crash. Including Attentiveness assistant
5AP	Decoding for no-dazzle high-beam assistance	X	X	X	X	0.00	note: refer to specific offers in the country-specific contribution
5AS	Driving Assistant not with 5AT	X	X	X	X	492.00	camera-based driver assistance system consisting of Lane Departure Warning, Person warning with light City braking function and Approach control warning with light City braking function. At speeds above approx. 70 km/h, Lane Departure Warning detects lane markings and helps prevent inadvertent departure from the lane by transmitting perceptible vibrations via the steering wheel as a warning. When a direction indicator is ON or the direction-indicator stalk is held in short ON position (desired lane change), the function is suppressed. Indication in the instrument cluster. Person warning and Approach control warning warn and brake in a speed range from approx. 10 km/h to 60 km/h. Approach control warning also warns of potential collision with a vehicle ahead at higher speeds, with preconditioning of the brakes for faster brake response and shorter braking distances. Operation by means of a button in the control unit for driver assistance systems. Note: refer to specific offers in the country-specific contribution
5AT	Driving Assistant Plus not with 5DF	X	X	X	X	1505.00	camera- and radar-based driver assistance system consisting of Driving Assistant including active cruise control, which enables the vehicles speed to be set in the range from approx. 30 to 210 km/h and the speed-dependent distance to be maintained from the vehicle ahead can then be set in any of 4 selectable stages. Including Active Full Braking and slowing to defined speed if there is an acute risk of collision. In addition to vehicles driving ahead, stopped vehicles can also be detected, automatic light braking of the vehicle if there is a risk of collision, operation of active cruise control by means of multifunction for steering wheel. Note: refer to specific offers in the country-specific contribution
5DA	Front passenger airbag deactivation not with 810 not with 802	X	X	X	X	30.00	deactivation through keyswitch on passenger side, status indicator light in the roof console
5DF	Active cruise control with Stop&Go function	X	X	X	X	1172.00	camera- and radar-based driver assistance system which enables the vehicles speed to be set in the range from approx. 30 to 210 km/h and the speed-dependent distance to be maintained from the vehicle ahead can then be set in any of 4 selectable stages. Approach control warning warns of collision with a vehicle ahead at approx. 15 km/h or higher speeds, preparation of the brakes for faster response and shorter braking distances. Operation by means of a button in the control unit for driver assistance systems. Including Active Full Braking and slowing to defined speed if there is an acute risk of collision. In addition to vehicles driving ahead, stopped vehicles can also be detected, automatic light braking of the vehicle if there is a risk of collision, operation of active cruise control by means of multifunction for steering wheel. The stop&go function makes it possible to automatically maintain queue speed and distance in stop-and-go traffic and in traffic jams, right down to complete standstill. Note: refer to specific offers in the country-specific contribution
5DL	Surround View only with 3AG + 508 + 430	X	X	X	X	560.00	system for optimum imaging of the area around the vehicle (360 degrees) by cameras integrated into the exterior mirrors and the bumpers, additionally allowing an early view of intersecting traffic in situations in which vision to either side is restricted. Activation when transmission position "R" is selected or by predefinable activation points; the images appear in the Control Display
601	TV function	X	X	X	X	870.00	for front monitor: digital reception, operation by iDrive controller, integrated roof aerial. Screen function for the following options: option code 3AG Rear view camera, 5DL Surround View. Note: refer to specific offers in the country-specific contribution
609	Navigation system Professional	X	X	X	X	1959.00	including compass display. Route planning by individually defined criteria, dynamic route planning with due provision made for current traffic news possible, on-board computer with extended functionality (distance from destination, estimated time of arrival, etc.), parallel display of the basic on-board computer data. Real Time Traffic Information (RTTI, new-generation traffic information service) can be booked in the framework of BMW Connected Drive. Only in combination with preparation for mobile phone with Bluetooth interface. Currently possible only in Germany, Italy, Great Britain, and France. Operation by system of preference, i.e. direct-selection buttons, iDrive controller with turn and press function, or touch-sensitive interface with signature recognition (iDrive Touch Controller). Fixed 10.25" display with 1280x480 pixels resolution, arrow pointer, map display north-up and heading-up and perspective view, 3D view and satellite images. Radio BMW Professional is basic equipment. Triple tuner with RDS / TMC. Hard-disc-supported system including 20 GB memory, for example for audio files. Control of the navigation functions by option code 620 Voice control possible. The stock of navigation data is loaded into the navigation unit when the vehicle is delivered. USB interface for map-data updates and entertainment files. Note: refer to specific offers in the country-specific contribution
