

## Original BMW Parts Multi-functional information display retrofit

### NEWS:

- New product

### Product description

With the use of the Head Unit High in the F series, the multi-functional information display is also being offered ex works with SA 6WB as special equipment. Retrofitting can be carried out by replacing the component and adapting the vehicle order accordingly. The relevant coding data is available from 03/2015 in ISTA/P. The multi-functional information display features a new, digital design that can be altered according to the driving mode (Comfort, Sport, Eco Pro).

### Sales features / benefits

- Customisable display options.
- Information from the driver assistance systems can be freely selected by the customer.
- Visual enhancement of the interior design.

### Applications

F01, F02, F03	Built after 07/2012
F10, F11, F18	Built after 09/2012
F06, F12, F13	Built after 03/2013
F15, F16	Built after 08/2014

### Note:

The values for the Condition Based Service (CBS) must be checked and if necessary corrected.

The head-up display may also need to be reset.

Since the information display can only be programmed once to the car's chassis number, we recommend disposing of the removed information display appropriately provided the customer has provided their consent.

This is intended to prevent the BMW Group having to assume product liability for damages caused by incorrect repairs by third parties. ◀

### Safety notes:

Please note the instructions on protection against electrostatic damage (ESD protection). ◀
